

# City of Weatherford Transportation Project Update

## BB Fielder East

### Project Description

Construct a new four lane wide urban type road from the intersection of Causbie Road to the new eastbound I-20 frontage road. This road will allow quick access from highway 51 to I-20 and the planned on-ramp systems.

### Status Update

Gilco Contracting Inc. was awarded the project contract on 1/13/09 an 8" reinforced concrete section and new 18" sanitary sewer. Construction began in March 2009. Due to heavy construction in the area, a grand opening ceremony was not held, but was officially opened to traffic on February 3, 2010.

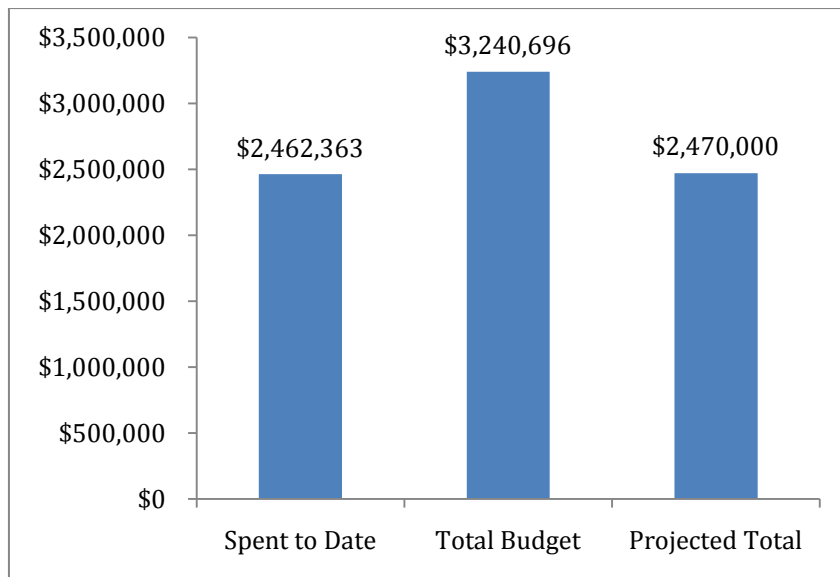

### Project Timeline

Completed Winter 2010

### Project Costs
