

City of Weatherford Transportation Project Update

SH171/FM51 (from IH20 to FM1884)

Project Description

Widen and reconstruct the existing three-lane rural type road to a four-lane urban road with a divided median and protected left turn bays at street intersections. Some reconfiguration elements include dual left turn bays at the intersections of Main and College Park Drive and Main and Martin Drive.

Status Update

The schematics are under review by TxDOT and environmental document has been submitted for review. Utility conflicts have been addressed, and ROW acquisition is nearing completion.

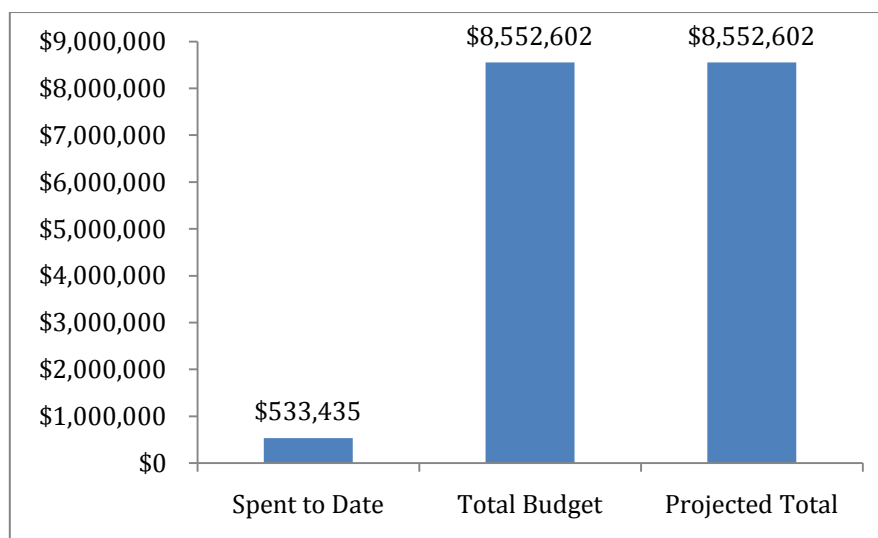

Project Timeline

Expected completion: Summer 2012
