

City of Weatherford Transportation Project Update

Spring Street

Project Description

This project will realign Spring Street to connect to North Main Street at the intersection of North Main Street and Bridge. The new alignment will eliminate the four-way stop intersection of North Elm Street and Spring Street and allow a more direct access to North Main Street.

Status Update

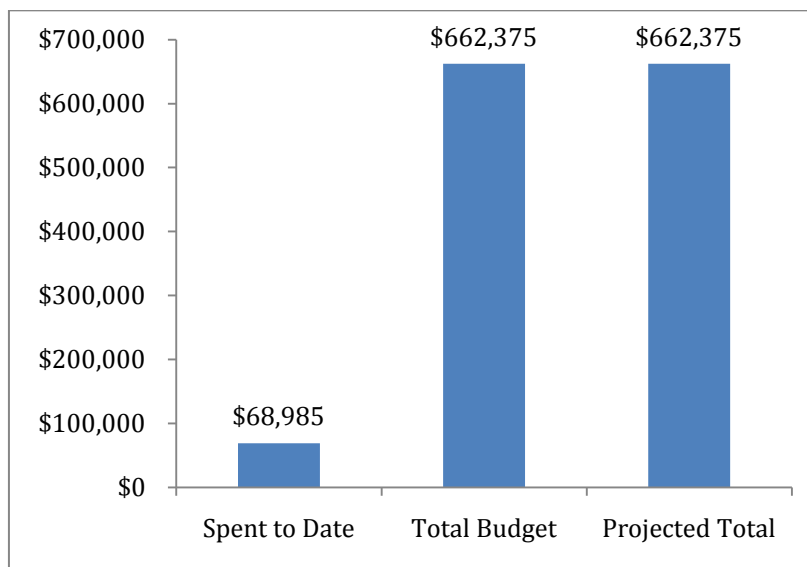

The engineering design is 95% complete. This project is currently on hold to allow TxDOT the completion of the viaduct on Fort Worth Highway.

Project Timeline

Expected Completion: TBD – Project On Hold
